Turkey**

Classification : **Category 2 - ACCEPTABLE**

Notes

- 1 The RICE scheme test proficiency in the use of the optical microscopy method of counting asbestos fibres as described in the Health and Safety Executive publication HSG248
- 2 The classifications will be updated after each subsequent round i.e. at 3 - 4 month intervals
- 3 Laboratories which have completed fewer than four rounds are normally classified as AWAITING CLASSIFICATION.
- 4 On completion of four rounds laboratories are classified with the performance category (CATEGORY 1, CATEGORY 2 or CATEGORY 3). Category 1 represents GOOD performance, Category 2 is ACCEPTABLE (but needs improvement), while Category 3 is UNSATISFACTORY performance.
